**Summary of reasons  
for classification:**

The computer image file *Young hotties---Amateur under age pre teen lolita 13 14 15 16 17 little girl Blonde red nudist naturist cute ass tits pussy vagina anal sex bitch lesbians HOT Girls Porn sexy.jpg* is classified as:  
Objectionable.

The file is a montage of photographs of children and young teenage girls who are naked or partially naked, including a series of close-ups of young girls' bodies without faces. The title, a string of sexually explicit words and phrases, leaves no doubt about the youth of the subjects, and the intended sexual effect on the viewer. The images seek to make young girls sexually arousing to adults. The file promotes and supports the exploitation of children and young persons, and is therefore deemed objectionable under s3(2)(a) of the Films, Videos, and Publications Classification Act (FVPC Act).

The Classification Office has considered the effects of the New Zealand Bill of Rights Act 1990 on the application of the classification criteria. The classification interferes with the freedom of expression, but this is an outcome that is consistent with Parliament's intention that publications falling under s3(2) of the FVPC Act are deemed to be objectionable. The classification is also a reasonable limitation on the freedom of expression that reflects the concern of "a free and democratic society" to limit the availability of publications that promote and support the exploitation of children and young persons for sexual purposes.
